

# USER FLOW

# journey map

## pain points

- it's hard to communicate with people who are deaf or mute
- family has someone who only speaks ASL and I want to learn
- learning ASL will benefit me, I just don't know who I can practice w/
- who will learn w/ me

## delights

- remembering a word or phrase and using it outside the app
- being able to show off what you're learning in the app
- now I can finally teach my daughter how to learn sign lang.

## thoughts

- how can I learn to communicate w/ school
- how did I say ...?
- when do I say ...?

# Stakeholders

Teachers &  
Interpreters

"Some times when I teach I have to finger spell words because it's a rare word to sign & I can't remember"

Students and  
those wanting to  
learn

"Learning in class is fun but it's hard to remember new lang w/o practicing with someone else"

those who are  
learning as a primary  
way of communication

"ASL has changed the way that I can communicate w/ my family since I went deaf but it's hard to explain without the app's help"
